Let's Look at the Future...

Shalom's 1993-94 Predictions:

Deb Roast - Deb receives her MCAT scores and they are through the roof! Every med school in the country is begging her to attend their University, but Deb has a sudden change of heart and decides to pursue an Economics doctorate. Upon receiving her Ph.d in Econ she is still thursty for knowledge so she goes to law school where she specializes in malpractice suits, with emphasis in Intramural injuries (especially thumbs) + surgery bills. With her brains and bucks she enters the Miss America Pageant, and wins but then is dethroned when she proceeds to spit on the judges for being sexist and spray paints all the fur coats w/ green paint!

Janelle - becomes an International traveler and overcomes her fear of new states and new countries. She writes a best seller called, "How to adjust to Culture Shock"

Cynthia - Becomes a CIA agent and becom internationally feared by all the drug lords. Her code name is Agent Pelé.

Jenn - becomes an AT+T operator and

Daphnie of the Year!

This wonderful award goes to Jenn Glandon who was voted Daphnie of the year for borrowing Rebeccas car and bringing someone elses car home! The amazing part of the whole thing was that the keys worked in both cars!

Congradulations Jenn! We love you, and no, you are not going to jail!!!...

Other Daphnie's to remember:

- Erika and the salad tongs
- Lisa and her stall
- Kristi and the clicking pen
- Leslie + Julie forgetting Deb
- Kami's crapping dog in the Temple

Thanks for a wonderful year ladies!
